DekaBank Deutsche Girozentrale

Key facts and statistics - H1 June 2022

Company overview
DekaBank Deutsche Girozentrale (DekaBank) is the securities service provider (Wertpapierhaus) for the German Savings Banks Finance Group (Sparkassen-Finanzgruppe). As of 30 June 2022, DekaBank reported consolidated balance sheet assets of €101.9 billion, whereas its total customer assets amounted to €366.8 billion (€185.2 billion from retail customers and €181.6 billion from institutional customers).

DekaBank provides its private and institutional clients with a range of fund-based products, covering all major asset classes. It also offers real estate funds and financing, lending, capital markets-related trading and sales services, and treasury facilities, including liquidity, asset and liability management and funding.

DekaBank was established in January 1999 following the merger of DekaBank GmbH and Deutsche Girozentrale – Deutsche Kommunalbank. Since June 2011, the bank has been fully owned by the German Sparkassen (savings banks) through two joint shareholders – the Deutsche Sparkassen- und Giroverband o.K. (DSGV o.K., the German Savings Banks and Giro Association) and Deka Erwerbsgesellschaft mbH & Co. KG.

**Business description**

DekaBank operates primarily as the securities service provider for the Sparkassen-Finanzgruppe and reported its core activities through the following five business divisions: Asset Management Securities, Asset Management Real Estate, Asset Management Services, Capital Markets and Financing. In 2021, the largest contributor to the bank’s total income was the Asset Management Securities segment.

In addition to its results under International Financial Reporting Standards (IFRS), DekaBank reports an economic result to better represent its true economic position. This non-GAAP pretax measure incorporates several items not shown in the IFRS income statement, such as valuation gains and losses from hedged lending, actuarial gains and losses, potential charges and interest expense related to AT1 bonds (with the latter also being reclassified to interest expenses in our adjusted financials). This report’s segment related sections are based on DekaBank’s economic result disclosures.

**Asset Management Securities**: This business division provides private and institutional clients with capital market-based asset management products and services. The services it offers to private investors include investment funds for all major asset classes. On behalf of its institutional investors, the bank manages special funds and has advisory mandates. This business division also includes the facilities of Master KVG, which enable institutional customers to pool their total customer assets with a single investment company.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on https://ratings.moodys.com for the most updated credit rating action information and rating history.
Furthermore, it provides services such as private retirement pensions and exchange-traded funds. As of 31 December 2021, this business division reported total customer assets of €320.4 billion and accounted for 48.9% of the bank’s total income in 2021.

**Asset Management Real Estate:** This business division includes the group’s property-related activities. Its products and services comprise property investment facilities for private and institutional investors, such as open-ended mutual and special property funds and credit funds, which invest in property, infrastructure and vehicle finance. Other services include the purchase and sale of property, management of such assets (real estate management), real estate lending and product development of group-wide property-based activities. As of 31 December 2021, this business division reported total customer assets of €50.2 billion and accounted for 16.7% of the bank’s total income in 2021.

**Asset Management Services:** This business division offers banking services related to asset management, which complements other asset management service offerings. It provides custody accounts with management services and offers custodial services to investment funds. In addition, it provides digital support for the securities business of the savings banks through its multi-channel solutions. In 2021, this business division accounted for 10.7% of the bank’s total income.

**Capital Markets:** This division offers support to stimulate trade between the savings banks, DekaBank and capital investment companies, while enabling clients to access the capital markets. In addition to its function as a commission agent for all relevant asset classes and as a centre of competence for trading and structuring capital market products, this segment also includes DekaBank’s certificate issuance business. Apart from the previously mentioned customers, this division also services non-Sparkassen-Finanzgruppe customers, primarily banks, insurance companies and pension funds. As of 31 December 2021, this business division reported total customer assets of €24.5 billion and accounted for 16.1% of the bank’s total income in 2021.

**Financing:** This business division offers loans on a stand-alone basis or through syndications and club deals. Focal financing segments include trade and export financing, aircraft financing, infrastructure financing and real estate financing. Furthermore, it is a principal provider of refinancing services to savings banks. In 2021, this segment contributed 7.6% of the bank’s total income.

**Other:** Through this division, DekaBank books overhead costs, pension obligations and income that is not directly attributable to the reportable segments. This excludes the income and expenses of treasury functions that have been allocated to the operating segments on a source-specific basis.

Company history
DekaBank was founded in 1999 following the merger of Deutsche Girozentrale – Deutsche Kommunalbank and DekaBank GmbH. The former was a wholesale bank established in 1918 that specialised in public sector and commercial financing. The latter was founded in 1956 and was the central fund manager for the German savings bank sector.

In January 2004, the bank increased its interest in WestInvest Gesellschaft für Investmentfonds mbH to 94.9% from 40.0% and assumed responsibility for its real estate funds.

In June 2011, the German savings banks increased their stake in DekaBank to 100% from 50%. As part of the transaction, the German Landesbanks divested their 50% ownership, DekaBank acquired a part of its own capital (€1 billion) and the savings banks acquired the remainder.

In January 2013, the bank’s subsidiary ETFlab Investment GmbH merged with Deka Investment GmbH (another DekaBank subsidiary).

In December 2013, DekaBank acquired Landesbank Berlin AG’s (LBB) capital markets business, LBB-Invest and in January 2014, the whole of it was acquired by DekaBank.

In June 2016, DekaBank purchased the remaining 69.4% shares of securities brokerage company S Broker for €16.0 million and now holds a 100% stake in the company.

In September 2019, Deka Immobilien GmbH was merged with Deka Immobilien Investment GmbH to further streamline divisional structures. All activities performed by Deka Immobilien GmbH were moved to Deka Immobilien Investment GmbH.

In 2020, as a part of DekaBank’s realignment strategy in Luxembourg, all banking activities of DekaBank Deutsche Girozentrale Luxembourg S.A. were transferred to DekaBank Deutsche Girozentrale Niederlassung Luxemburg and renamed to Deka Verwaltungsgesellschaft Luxembourg S.A.

In January 2021, DekaBank acquired IQAM Invest GmbH, an Austrian fund management company, to bolster its quantitative asset management business in Europe.
