The Deka Group.
The ‘Wertpapierhaus’ of the German Savings Banks.

DekaBank is the Wertpapierhaus (securities service provider) of the German Savings Banks. Together with its subsidiaries, it forms the Deka Group. As a central provider, Deka combines expertise as an asset manager, lender, issuer, structurer, liquidity hub, clearing partner and custody bank. With total assets of around EUR 283 billion (as at December 2017) and around 4.5 million managed securities accounts, the Deka Group ranks among Germany’s major securities service providers.

Firmly anchored in the world’s largest financial alliance.

Deka Immobilien is the specialist for real estate investments in the Deka Group. Firmly anchored in the world’s largest financial alliance, the German Savings Banks Finance Group (Sparkassen-Finanzgruppe), Deka Immobilien provides a wide range of real estate-based investment products and services, supplemented by debt funds that invest in real estate, infrastructure and transport. The Real Estate Asset Management (AMI) business division manages total customer assets (as at June 2018) of around EUR 36.1 billion.

Know-how and experience.

The Deka Group is one of the largest securities services providers in Germany, with around EUR 283 billion in total customer assets.

Expertise.

The Deka Group has more than 4,600 employees.

Solid background.

The German Savings Bank Finance Group has a business volume of around EUR 2,840 billion.

As at 30 June 2018
Integrated Real Estate Expertise.
As our partner, you can set the highest standards.

The Real Estate Asset Management business division is mainly comprised of two investment management companies – Deka Immobilien Investment GmbH and WestInvest Gesellschaft für Investmentfonds mbH – and the service company Deka Immobilien GmbH.

**Fund Management.**

The two investment management companies concentrate on active portfolio and fund management. We offer investors access to global investments through our real estate funds. In addition, the Luxembourg management company Deka Immobilien Luxembourg S.A. and Deka Investors InvAG provide further reliable platforms for new product development.

**Acquisitions and Sales. Real Estate Management.**

Deka Immobilien GmbH is responsible for all real estate acquisitions, sales, leasing, redevelopment and all other real estate services. We actively manage diverse property portfolios in different asset classes and regions along the entire value chain and implement investment strategies for all real estate funds in selected growth markets.

**Risk, Finance and Organisation.**

The Risk, Finance and Organisation unit is responsible for risk management and risk controlling at the fund and company level, and for further development and maintenance of processes and systems, while ensuring organisational separation of risk management and portfolio management. The unit also assists and monitors compliance with standards for good and responsible corporate governance and sustainability. Within Deka Immobilien GmbH, the unit is also responsible for fund tax and finance aspects and all fund accounting for real estate investment funds.

**Real Estate Lending.**

The DekaBank Real Estate Lending unit is responsible for commercial real estate lending, which is available exclusively to institutional real estate investors in selected markets and categories of real estate.

With a total of around 600 professionals, we concentrate on office, retail, logistics and hotel properties. We work closely with our real estate investment fund and financing partners by, for example, sharing representative offices in major markets, whilst maintaining the highest standards of confidentiality.
Real Estate Asset Management business division.
Close to locations, tenants and market trends.

As a global player with local expertise, Deka Immobilien is one of Europe’s top names and has established itself among the leaders as measured by assets under management. Deka Immobilien aims to continue its growth as a large international real estate manager using an approach that focuses on quality and stability.

More than 50 years of real estate experience.

Founded in 1966, Deka Immobilien has developed its international real estate experience over many years. The directly managed real estate assets comprise over 490 properties with leasable space of around 9.0 million m² spread over 25 countries on 5 continents. We concentrate on office, retail, hotel and logistics properties. We provide in-depth market knowledge through utilising our proven regional and sector specialists in acquisitions and sales, as well as within real estate management. As one of the largest portfolio holders of certified properties, we are pioneers in the area of sustainable real estate investment.

Outstanding management quality.

The quality of our management is also confirmed by independent rating agency Scope.

Scope gave Deka Immobilien a rating of AA+ (AMR, very good) in June 2018.

DC Tower 1, Vienna, Austria, LEED for Core & Shell “Platinum”.
211 outstanding green buildings worldwide. Over 66 per cent of our total real estate assets are certified.
Deka Immobilien places great importance on corporate governance and sustainability. Our business principles and policies are in line with responsible and transparent corporate governance. Their consistent implementation is marked by numerous individual measures, including external measures such as ensuring investor protection, establishing an ombudsman, and staffing the Supervisory Board with a member independent from the Group. Internally, corporate governance and sustainability are fixed elements of systematic risk management and risk controlling.

**From trend to standard.**

This self-image contributes to an equally marked focus on sustainability both commercially and in relation to the environment. Following the guiding principle of “from trend to standard”, sustainability has long since become an integral part of our business policy. Whether purchasing or looking for tenants – we increasingly enquire about factors such as energy efficiency, innovative technology and user comfort in addition to location.

**We prioritise the following in terms of sustainability:**

- **In the business division:** We consider compliance with legal and regulatory requirements to be a matter of course. In addition to our active involvement in the activities of associations, we are also engaged in developing and shaping binding standards for corporate governance and sustainability, as well as the efficient dissemination of knowledge about them.

- **In the real estate fund business:** As well as our certification strategy, we comply with a full range of sustainability criteria in our properties – always taking account of cost-efficiency. This provides an excellent measurement parameter and comparability factor in relation to our competition and shows we are one of the open-ended real estate fund providers with the highest volume of certified properties (green buildings) in the German market.

- **In real estate management:** Satisfied tenants are our most valuable asset. One of the ways we achieve this is by reducing ancillary costs through sustainable management and energy-related renovations, stipulating “green” clauses in our agreements and generally lowering CO₂ consumption.
Products for retail investors.
Open-ended real estate mutual funds.

Our open-ended real estate funds allow us to aggregate the financial strength of around 1 million private investors. We aim to give you stable, steady long-term performance.

In line with the investment strategy, the open-ended real estate funds invest almost exclusively in commercial property. To minimise the risk, the portfolio is broadly diversified in terms of usage type, size categories and regional distribution.

The funds concentrate on purchasing, value-oriented development and the sale of commercial property capable of third party use in liquid markets.

Products.

- **Deka-ImmobilienEuropa.**
  An open-ended real estate fund focusing on investments in Germany (30–40%), the rest of Europe (55–65%), and abroad (0–5%).

- **WestInvest InterSelect.**
  An open-ended real estate fund focusing on investments in Germany (35–45%) and the rest of Europe (55–65%).

- **Deka-ImmobilienGlobal.**
  An open-ended real estate fund that invests globally.

- **Deka-ImmobilienNordamerika.**
  An open-ended real estate fund that exclusively invests in significant North American locations in USD.

*The Edge, Amsterdam, Netherlands, BREEAM New Construction „Outstanding“.*

Solutions for institutional investors. Custom-tailored concepts from a single source.

Tradition and innovation: We launched the first open-ended real estate institutional funds in Germany as early as 1976, followed by many other successful professionally-managed concepts. We provide our services to institutional investors in flexibly structured products together with excellent market access and outstanding risk management.

Our products range from traditional open-ended real estate fund solutions for large investor groups, custom-tailored, thematic and regionally-focused funds, such as sector funds and club deal solutions, for smaller, like-minded groups of investors, all the way through to individually tailored funds.

Products.

- WestInvest ImmoValue. A mutual fund with an investment focus on European office properties.

- WestInvest TargetSelect series – sector funds for hotel, retail and logistics.
  - WestInvest TargetSelect Hotel
  - WestInvest TargetSelect Shopping
  - WestInvest TargetSelect Logistics

- Deka institutional fund family. Institutional funds with regional and sector investment strategies worldwide, such as Domus-Einzelhandel-Deutschland and Domus-Deutschland-Fonds Nr. 2.

- Our Deka-Immobilien Focus series enable you to use a “club deal” to invest in a single property or in property portfolio.

Alternative Investments.
Credit funds and real estate funds of funds.

In the alternative investments area, we develop and manage innovative product concepts based on criteria that differ from those used in the traditional fund business. These include, for example, funds investing in real estate, infrastructure and transport loans, and managing real estate funds of funds.

Products.

- Loan Investment product family. Regulated investment fund products for institutional investors that invest in low-risk commercial real estate loans (Deka Realkredit Klassik), infrastructure loans (Deka Infrastrukturkredit) and custom-tailored solutions for means of transport loans.

Deka real estate funds of funds invest in real estate funds with different commercial usage types.

- Deka-Immobilien StrategieInstitutionell is a fund of funds that invests in Deka Group real estate funds. The fund focuses on WestInvest ImmoValue, the WestInvest TargetSelect range and other institutional real estate funds in the Deka Group as target funds.

- Deka-Immobilien Manager Selektion Europa is a pan-European core/core+ real estate fund of funds that invests in selected target funds of professional managers. It focuses on office, retail, logistics and hotel properties.

Margaret Street, London, UK, BREEAM Offices “Excellent”.
Deka-Immobilien-Kompass. Strategic partnership for real estate investments.

Our Deka-Immobilien-Kompass offers institutional investors a comprehensive modular range of services concerning investment in real estate funds.

Our advisory, management and administration modules help you implement and continuously improve a custom-tailored real estate strategy and professional investment decisions.

Depending on your requirements, you can select individual service components, or use the entire package.

We prepare our analyses in such a manner, that they can be used as final proposals for approval by committees, or indeed, as a component of any wider strategy.

Three steps to the target – our modules:

1. **Advisory Services:** Based on your individual requirements and any existing real estate portfolio you may have, we work with you to develop a customised real estate strategy, which also includes independent examination and selection of real estate target funds, and support you in implementing this step by step.

2. **Management:** An investment based on your requirements, with the greatest possible flexibility: a custom-tailored individual fund of funds. We assume full responsibility for managing and administering your investments, all the way from identifying and selecting suitable real estate funds to representing your interests in the investment committees.

3. **Administration:** Reduce your administrative workload – bundle your real estate target funds with Deka.

“The Park”, Prague, Czech Republic.
Acquisitions and Sales.
Identifying and taking advantage of opportunities for our investors.

As one of Europe’s leading real estate investment managers, we have a clear mandate: Investing in the world of tomorrow. We are currently invested in 25 countries on 5 continents. Buyers and sellers, tenants, brokers, investors and business partners rely on our real estate expertise and our financial strength.

We have excellent access to the market based on our long-standing market presence, cross-regional network and wide range of investment activities. In the past five years, we have transacted approximately EUR 21 billion worldwide, including purchases with a total volume of approximately EUR 15 billion. Exploiting new markets with growth potential is a key focus in our investment strategy – around two-thirds, or EUR 20 billion, of our real estate assets are located outside our domestic market. Our activities are based on demanding yield and quality criteria and our in-depth market knowledge. Our market-leading in-house research also ensures the quality of the decisions we take during a planned, clearly structured and defined investment process.

Specialists with a global network.

The acquisition and sales team have an important and central role as part of consistently managing the portfolio on an active basis within the business division. The close collaboration between the respective country managers within the investment teams alongside our investment specialists for retail, hotel and logistics asset-classes provides a further guarantee for our global success within constantly-shifting real estate markets.

Real Estate Management. Excellence, service, quality and innovation are our principles.

Deka Immobilien offers a broad and geographically diverse range of commercial space for a wide variety of uses. Our tenant base comprises more than 6,200 users and ranges from owner-managed restaurants to international listed corporations.

Whether office premises, shopping centres, logistics properties or hotels – active management of different types of properties requires a large amount of specialist and a high quality of market knowledge. Deka Immobilien is synonymous with this expertise.

Satisfied tenants are our most valuable asset.

As a premium landlord, we always keep our eye on properties that are in line with future and market requirements and that will provide users with high quality over the long term. We therefore focus all our activities on the professional support of our tenants, efficient buildings management and high quality of the properties. The satisfaction of our existing tenants is a primary goal in this. We attach great importance to a trusting relationship, excellent service quality and innovation.

Facts and figures.

| 6,200 | More than 6,200 leasing partners in a wide variety of sectors in 25 countries. |
| 9.0   | 9.0 million m² of office, retail, logistics and hotel space. |
| 1.8   | Net rental income rose to EUR 1.8 billion in 2017. |
Integrated asset management approach. Local presence, local network.

Regional presence in German and international core markets together with an international network give us high market penetration and an ability to support tenants and properties across the world. This means you can always contact us, and we provide fast and simple solutions, both globally and regionally.

With a holistic yield-oriented asset management approach, we take responsibility for the entire real estate life cycle. In addition to leasing activities, our asset managers control and coordinate all property and facilities management activities. They also assist the acquisition and sales process, which plays an important role in upgrading and optimising the portfolios under management.

Efficient collaboration with internal departments is a key factor for success. An inhouse-group of expert architects and engineers with many years’ experience in project management and building planning support the asset managers.

Creating sustainable added value.

The inclusion of sustainability criteria in portfolio management is a fixed element in our management process and is included right from the point when a property is acquired.

Our experience and knowledge mean we are in a position to increase value over the long term through the forward-looking planning and implementation of structural maintenance and modernisation measures, as well as a wide range of real estate marketing services.

We invest in building refurbishment and maintenance measures, while taking into account environmentally friendly and energy-efficient building practices. Our services extend to the responsible implementation of comprehensive revitalisation and project development activities within our existing portfolio for the enhancement of value.
Real Estate Lending.
At the level of a major international real estate investor.

As a real estate specialist with many years' experience, the Deka Group is your capable partner in the business of commercial lending.

- We combine comprehensive knowledge of the conditions in key international real estate markets with in-depth awareness of special local features and proven lending expertise.

- An excellent network of external experts supports our committed and highly skilled team – from valuing properties through to preparing documentation.

- We use modern risk assessment systems and models and individual security analyses when arranging and structuring our real estate loans.

- We concentrate on loans secured by property liens.

- The Deka Group also has an outstanding reputation as a specialist in the financing of open-ended real estate funds.

- As with our funds, we focus exclusively on office, retail, hotel and logistics properties, for loans of EUR 20 million or more.

- In the case of large-volume transactions, we work with established banking partners.

Whether variable or fixed, short-term or long-term – our range of loans provides solutions that are individually custom-designed to our clients’ aims and requirements.

Real Estate Lending Business.
Serving clients globally.

Client-orientation and service are a priority for us. We create innovative and flexible loan offers that are individually customised to your financing needs. Our deal team approach allows us to make sound decisions quickly, thereby ensuring timely, professional performance of our agreements with you.

Alongside office and retail properties, we also concentrate on specialised properties (hotels, logistics). The support of open-ended real estate funds is also one of our core competences.

As an internationally oriented enterprise, we are also represented in Europe (German-speaking countries, France, the UK, Italy, Ireland) as well as in North America (USA, Canada), selected Asian markets and in Australia.

Real estate lending from DekaBank offers:

- Customised and creative financing solutions.
- Reliable service.
- A motivated team with international expertise.
